

Attention budget billing members:

Changes are coming to the PRECorp Budget Billing program and when your account will be cleared and adjusted for upcoming year. Look in your mail for a letter that will outline the specific details to the budget billing program. Highlights will also be included in upcoming Power Lines in your monthly statement.

PRECorp offers a budget billing program for residential members to help even out seasonal

spikes in power usage over a 12-month period. Annual billing is averaged to enable members to budget a fixed amount for their power bill each month.

You must have 12 months of service history to enroll.

If you are interested in signing up for budget billing, please contact a Member Service Representative at 1-800-442-3630 to help get you set up.

Energy Efficiency Tip of the Month

Setting your thermostat to a colder setting than normal when you turn on your air conditioner will not cool your home any faster and could result in excessive cooling and unnecessary expense.
