

## Medora Musical in N.D. offers member discounts on tickets

Through a Touchstone Energy co-sponsorship with Basin Electric and other Basin coops, PRECorp members are eligible for ticket discounts for summer shows at the North Dakota entertainment venue. Call 1-800-MEDORA-1 or go to [www.Medora.com](http://www.Medora.com) and use discount code (TOUCH2022)

for a 15% discount off the following reservations:

- Tickets to the Medora Musical
- Pitchfork Steak Fondue
- Lodging:
  - Elkhorn Quarters
  - Badlands Motel
  - Rough Riders Hotel
- Bully Pulpit Golf Course

## Energy Efficiency Tip of the Month

During summer months, run large appliances that emit heat (like clothes dryers and dishwashers) during the evening when it's cooler. This will minimize indoor heat during the day when outdoor temperatures are highest.

## Follow us on Facebook and Twitter!

For updates on PRECorp outages, safety, efficiency, cooperative opportunities and more, go to Facebook and Twitter.

## Events calendar

The list of PRECorp events includes Board meeting dates, holidays, and telephone town hall meetings and more.

- **Tuesday, June 21** - PRECorp Board of Directors meeting, 9:30 a.m., Sheridan

- **Wednesday, August 24** - PRECorp CEO Telephone Town Hall, member invite call at 6:30 p.m., stream live on Facebook, or dial 888-886-6602.

## Idle Line Retention options

The Idle Line Retention process provides a rate structure that allows members to retain idle lines that they intend to re-energize in the future, while contributing to the maintenance, depreciation and property taxes associated with the idle line.

In this designation, the member may have the meter disconnected and continue to pay a minimum charge to ensure the electric line is left in place. Transformers and secondary line can be removed at PRECorp's option.

If you have an idle service on your property that you are not paying the Idle Line Retention

rate for, PRECorp will contact you to find out whether you have future plans for this service or would like to have it removed.

To retain the idle line, you will be required to pay the idle line retention charge associated with the type of service it was when energized.

The monthly rates are:

- Residential/Seasonal: \$15
- Irrigation: \$15
- General Service: \$18
- Large Power: \$79

For more information, contact the PRECorp Member Service Department at 1-800-442-3630.

## Pole testing, line patrol notice

Powder River Energy linemen and distribution design technicians are inspecting and testing poles, patrolling line, and other infrastructure throughout our service territory in Campbell, Crook, Johnson, Sheridan, and Weston counties as part of our maintenance program.

Landowners and local residents might see PRECorp personnel working within power line rights-of-way, or using binoculars or aerial drones in their area.

PRECorp personnel can provide identification on demand if there is a question about their presence on your property. Call 1-800-442-3630 if you have any additional questions.

## Discounted pricing for PRECorp members

PRECorp is partnering with WeatherFlow to offer multi-function Tempest Weather Stations to members at a discounted price. In addition, PRECorp is offering a loan program for members who would like to pay for the unit over time.

Go to [www.weatherflow.com/precorp](http://www.weatherflow.com/precorp) for more information on the product and how to order.

The Tempest senses light, rain, wind, barometric pressure, temperature, humidity, lightning, and other factors with wireless transmission. The units are warrantied, but are very durable and low maintenance, with no moving parts.

Data flows to WeatherFlow databanks and local collectors can publish to a data cloud. The live data readings at an individual ranch are visible on that user's mobile device using a simple app.

While a user can see what's happening at their place, readings from across a network of stations can also be seen and stored. This benefits the local residents who need this data for storm reporting or insurance claims.

This is particularly important for the agriculture industry where review of accurate weather data is part of the daily chores.

Other potential benefits aside from the discounted purchase price, include a 'data dividend' of \$20 a year for two years for making the information public.

For more information on this weather station program, contact PRECorp at 1-800-442-3630.
