

## Idle line retention rate reminder

The Idle Line Retention process provides a rate structure that allows members to retain idle lines that they intend to reenergize in the future, while contributing to the maintenance, depreciation and property taxes associated with the idle line.

In this designation, the member may have the meter disconnected and continue to pay a minimum charge to ensure the electric line is left in place. Transformers and secondary line can be removed at PRECorp's option.

If you have an idle service on your property for which you are not

paying the Idle Line Retention rate, PRECorp will contact you to find out whether you have future plans for this service or would like to have it removed.

To retain the idle line, you will be required to pay the idle line retention charge associated with the type of service it was when energized.

The monthly rates are:

- Residential/Seasonal: \$15
- Irrigation: \$15
- General Service: \$18
- Large Power: \$79

For more information, contact the PRECorp Member Service Department at 1-800-442-3630.

## Line inspections near your property

Powder River Energy linemen and distribution design technicians are inspecting and testing poles, patrolling line, and other infrastructure throughout our service territory in Campbell, Crook, Johnson, Sheridan, and Weston counties as part of our maintenance program. Landowners and local residents might see PRECorp personnel working

within power line rights-of-way, or using binoculars or drones in their area.
