---

**Rate Schedule: Residential (A)**

APPLICABILITY

Applicable to Residential customers of the Corporation for all residential and seasonal uses requiring less than 50 kVa of transformer capacity. Seasonal uses include stock water wells, recreational cabins, and rural community buildings. The capacity of individual motors served under this rate schedule shall not exceed ten horsepower (10HP).

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Single-phase, 60 cycles, at Corporation's standard secondary voltage.

MONTHLY RATE

Basic Charge – Service 200 amps and under: \$25.00 per month

Basic Charge – Service over 200 amps: \$30.00 per month

Energy Charge: All kWh per month at \$0.07862 per kWh

SEASONAL USAGE RATE

Seasonal customers will be billed annually for the basic charge and all energy usage.

Basic Charge – Service 200 amps and under: \$300.00 per year

Basic Charge – Service over 200 amps: \$360.00 per year

Energy Charge: All kWh per year at \$0.07862 per kWh

MINIMUM BILLING

The minimum monthly or annual billing under this schedule shall be the Basic Charge.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's standard line extension policy shall be in addition to charges of this rate schedule.

---

Issued by  
Michael E. Easley, Chief Executive Officer

Issued: January 27, 2016

Effective: January 10, 2017

Dkt. No. 10014-168-CR-16

---

**Rate Schedule: Residential (A)**

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½%) penalty will be added to the monthly billed amount.

The basic charge and energy charges for Seasonal customers will be due and payable on an annual basis in the month of October or when service is disconnected.

RULES AND REGULATIONS

Service supplied under this schedule is subject to the terms and conditions set forth in the Corporation's Rules and Regulations on file with the Public Service Commission of Wyoming.

---

**Rate Schedule: Residential Time of Day (TOD)**

APPLICABILITY

Applicable to Residential customers of the Corporation where customer has installed Corporation approved storage heating equipment. This rate is not available to seasonal loads.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Single-phase, 60 cycles, at Corporation's standard secondary voltage.

RATE

Basic Charge – Service 200 amps and under: \$25.00 per month

Basic Charge – Service over 200 amps: \$30.00 per month

Energy Charge:

September through May:

On-peak usage (8 a.m. to 10 p.m.) \$0.08192 per kWh

Off-peak usage (10:01 p.m. to 7:59 a.m.) \$0.05754 per kWh

June through August:

All kWh per month \$0.07862 per kWh

MINIMUM BILLING

The minimum monthly billing under this schedule shall be the Basic Charge.

CYCLE BILLING

Normal billing is conducted in four cycles, it is the intent of the Corporation to bill the time of day customers in the third cycle; however, the Corporation will reserve the privilege to modify the bill cycle as it deems necessary.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

---

---

**Rate Schedule: Residential Time of Day (TOD)**

ADDITIONAL CHARGES

Any amount authorized under the Corporation's standard line extension policy shall be in addition to charges of this rate schedule.

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½%) penalty will be added to the monthly billed amount.

CONDITIONS OF SERVICE

1. The Corporation will read the meters on a monthly basis.
2. The Customer will be required to install Corporation approved storage heating equipment.
3. The Customer must contract for the rate for a minimum of three (3) years.
4. The rate contract may be cancelled by agreement of both parties. If the contract is cancelled, the Customer is no longer qualified to receive service under this rate except by consent of the program manager.
5. The Customer will be required to meet with a qualified Corporation employee for explanation of this rate prior to signing a contract.
6. The storage heater equipment will be installed to the standards set by the Corporation.
7. The Customer, prior to signing the contract, must be current on his/her bill.
8. Budget billing will not be available until the Customer has twelve (12) months of usage and billing history under this rate.

RULES AND REGULATIONS

Service supplied under this schedule is subject to the terms and conditions set forth in the Corporation's Rules and Regulations on file with the Public Service Commission of Wyoming.

**Rate Schedule: Residential Heat Rate (RHR)**

APPLICABILITY

Applicable to Residential customers of the Corporation who have permanent electric resistance heat and/or electric heat pump space heating systems. This rate is not available to seasonal loads. This rate is not available to Residential Time-of-Day (TOD) customers.

Customers taking electric service under this rate schedule must have Corporation approved meter installations and any additional equipment required by the Corporation necessary to meter the electric heat installation loads identified above separately from other loads.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Single-phase, 60 cycles, at Corporation's standard secondary voltage.

RATE

Basic Charge – Service 200 amps and under:	\$27.50 per month
Basic Charge – Service over 200 amps:	\$32.50 per month

Energy Charge: All kWh per month at \$0.07862 per kWh

Heat Credit: \$0.03361 per kWh of electric resistant heat usage during the months of October through April.

MINIMUM BILLING

The minimum monthly billing under this schedule shall be the Basic Charge.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's standard line extension policy shall be in addition to charges of this rate schedule.

Effective: January 10, 2017

Dkt. No. 10014-168-CR-16

---

**Rate Schedule: General Service (GS)**

CUSTOMER'S RESPONSIBILITY

The Customer shall provide coordinated sectionalizing equipment, acceptable to the Corporation, immediately adjacent to the point of delivery, to protect the system of the Corporation from faults and over-currents in the system of the Customer. The Customer shall also provide a suitable means to disconnect from the system of the Corporation.

When disturbances in the Corporation's electrical system are observed, the Corporation will investigate, determine the cause, and take corrective action. If it is determined the disturbances are caused by the Customer's system, the Customer may be required to install proper corrective equipment or make adjustments in its operation to alleviate the disturbance.

RULES AND REGULATIONS

Service supplied under this schedule is subject to the terms and conditions set forth in the Corporation's Rules and Regulations on file with the Public Service Commission of Wyoming.

Dkt. No. 10014-168-CR-16

---

**Rate Schedule: Large Power (LP)**

APPLICABILITY

Applicable to customers requiring 50 kVa or more of transformer capacity.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Single-phase or three-phase, 60 cycles, at Corporation's standard voltage.

RATE

Basic Charge:	\$150.00 per month
Demand Charge:	
First 50 kW of Billing Demand per month at	\$3.00 per kW
Excess kW of Billing Demand per month at	\$6.00 per kW
Energy Charge:	
First 200 kWh per month per kW of Billing Demand at	\$0.06642 per kWh
Excess kWh per month at	\$0.04642 per kWh

DETERMINATION OF BILLING DEMAND

The Billing Demand shall be the maximum kilowatt demand established by the Customer for any period of fifteen (15) consecutive minutes during the period for which the bill is rendered, as indicated or recorded by a demand meter or otherwise determined and adjusted for power factor, but in no event will the Billing Demand be less than sixty percent (60%) of the highest Billing Demand established during any of the immediately preceding eleven (11) months. A minimum Billing Demand may be established in the contract for service. Billing Demand will in no case be less than fifty (50) kW.

POWER FACTOR ADJUSTMENT

If at any time the measured power factor shall be less than ninety percent (90%), the Corporation may require the Customer to take corrective measures as necessary, including the installation of shunt capacitors at the load, to guarantee a power factor of not less than ninety percent (90%) at the metering point. During any period that the measured power factor is less than ninety percent (90%), the measured demand shall be increased one percent (1%) for each one percent (1%) the measured

Dkt. No. 10014-168-CR-16

---

**Rate Schedule: Large Power (LP)**

power factor is less than ninety percent (90%), to determine the billing demand.

MINIMUM MONTHLY CHARGE

The minimum monthly charge will be specified in the contract for service.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's standard line extension policy shall be in addition to charges of this rate schedule.

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½%) penalty will be added to the monthly billed amount.

CONDITIONS OF SERVICE

1. Motors having a rated capacity in excess of ten horsepower (10 HP) must be three-phase.
2. All wiring, pole line and other electrical equipment beyond the metering point shall be considered the distribution system of the customer and shall be furnished and maintained by the customer.
3. Where service is delivered at standard primary distribution voltage, PRECorp may allow primary metering based on its determination of what is in the Corporation's best long-term needs and future expansion possibilities.
4. Where service is delivered at standard primary distribution voltage, a transformation credit shall be applied to the customer's monthly bill. The credit shall be \$0.40 per kVa of contract capacity. The Corporation shall have the option of metering at the secondary voltage and adding the estimated transformer losses to the metered kilowatt-hours and kilowatt demand.

CUSTOMER'S RESPONSIBILITY

The Customer shall provide coordinated sectionalizing equipment, acceptable to the Corporation, immediately adjacent to the point of delivery, to protect the system of the Corporation from faults and over-currents in the system of the Customer, and to provide a suitable means for the customer to

**Rate Schedule: Irrigation (I)**

APPLICABILITY

Applicable to seasonal irrigation customers.

AVAILABILITY

Available on the Corporation's distribution lines having adequate capacity for service and are within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Three-phase or single-phase at Corporation's standard secondary voltage.

RATE

Horsepower Charge: \$20.75per HP per year

Energy Charge: All kWh used per season at \$0.07750 per kWh.

The irrigation season shall be April through October of each year. For service outside the irrigation season, there will be a charge of \$2.50 per connected horsepower per month, or fraction thereof, plus an energy charge of \$0.07750 per kWh used.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's standard line extension policy shall be in addition to charges of this rate schedule.

DETERMINATION OF CONNECTED HORSEPOWER

The Corporation shall determine the connected horsepower by the nameplate rating of the motors or, at its option, by test under conditions of maximum operating load.

POWER FACTOR

The Customer will maintain a power factor of not less than ninety percent (90%). The Corporation reserves the right to measure power factor at any time. If measured power factor at the Customer's meter is less than ninety percent (90%), the Customer will be required, upon sixty (60) days written notice, to correct such power factor to at least ninety percent (90%).

MINIMUM ANNUAL BILLING

The minimum annual billing under this schedule shall be \$20.75 per connected horsepower, but in no case less than \$155.63 (based upon 7.5 HP). The annual minimum is payable in advance and must be paid before service is connected each year.

---

Issued by  
Michael E. Easley, Chief Executive Officer

**Rate Schedule: Outdoor Lighting (OL)**

AVAILABILITY

Available to all Corporation customers who are receiving 120 volt metered electric service and within the certificated territory of Powder River Energy Corporation.

The ADDS-LIGHT package shall consist of a 100-watt high-pressure sodium lighting unit with an automatic photo eye control.

RATE

175 W. Mercury Vapor	\$9.00 per month Closed
400 W. Mercury Vapor	\$16.00 per month Closed
100 W. High Pressure Sodium	\$9.00 per month Closed
150 W. High Pressure Sodium	\$9.00 per month Available
400 W. High Pressure Sodium	\$16.00 per month Closed

The monthly rental fee shall provide for installation of the light on any Corporation owned pole, where 120/240 volt electric service is available, as well as normal maintenance and electric power and energy required to supply the light.

NORMAL MAINTENANCE

The Corporation will repair or replace an inoperative unit as soon as practicable after receiving official notice from the customer of the inoperative unit. No reduction in the rental charges will be allowed on inoperative units until the unit has been inoperative for more than three regular business working days after the Corporation has received official notice of the inoperative condition. After this time, a discount of \$0.15 per day may be deducted from the rental charge until the unit is repaired or replaced.

OFFICIAL NOTICE

The headquarters office shall be notified by mail or telephone during regular business hours only.

TERMS OF PAYMENT

Payment for electric service must be received in one of the corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½%) penalty will be added to the monthly billed amount.

**Rate Schedule: Street Lighting (SL)**

APPLICABILITY

Applicable to unmetered, photo-electric controlled outdoor lighting used to provide street lighting which is installed on Corporation owned poles where the required secondary voltage exists or can be obtained under provisions of this schedule.

AVAILABILITY

Available in the incorporated towns and villages within the certificated territory of Powder River Energy Corporation, where an elected or appointed official has the authority to execute contracts and pay bills. Also available to platted and approved subdivisions where a legal entity exists to execute contracts and pay bills.

RATE

Lamp size

100 W. High Pressure Sodium	\$9.00 per month Closed
150 W. High Pressure Sodium	\$9.00 per month Closed
175 W. Mercury Vapor	\$9.00 per month Closed
400 W. Mercury Vapor	\$16.00 per month Closed
400 W. High Pressure Sodium	\$16.00 per month Available

CONDITIONS OF SERVICE

1. A contract will be executed for a minimum of one (1) year for all lighting provided under this schedule.
2. All facilities, not already existing, required to provide lighting service requested shall be paid for by the towns, villages or subdivisions. The total cost to install shall include both labor and materials.
3. The Corporation will install, own and operate the street lighting system. Performance contemplated hereunder includes the replacement of lamps, photo electric eyes and ballasts. Performance by the Corporation shall not include maintenance for damages caused by malicious mischief; such damages shall be the responsibility of the customer.
4. Mercury vapor lights will not be available for new installations.

**Rate Schedule: Street Lighting (SL)**

Conditions of Service (con't)

5. The High Pressure Sodium light shall be considered the standard fixture provided by the Corporation under this tariff.
6. Upon receipt of notice from the customer of failure of a light to operate as provided, the Corporation shall have a reasonable time in which to make necessary repairs or replacements during working hours.
7. Exceptions to these conditions for service to facilitate pre-existing variations will be handled by a mutually agreeable contract.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing card or the bill shall be deemed delinquent and a one and one-half percent (1½ %) penalty will be added to the monthly billed amount.

RULES AND REGULATIONS

Service supplied under this schedule is subject to the terms and conditions set forth in the Corporation's Rules and Regulations on file with the Public Service Commission of Wyoming.

Effective: January 10, 2017

Dkt. No. 10014-168-CR-16

---

**Rate Schedule: Large Power Transmission Level - Coal Mines (LPT - CM)**

APPLICABILITY

Applicable to coal mining customers who take delivery of electric service at the Corporation's transmission voltage and is metered at one point of delivery or as determined by the Corporation.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Alternating current, 60 cycles, three-phase.

RATE

DISTRIBUTION COMPONENT

Basic Charge: \$1,000.00 per month

Demand Charge: \$0.88 per kW per month of maximum metered demand (NCP).

POWER SUPPLY COMPONENT

Demand Charge: \$14.97 per kW per month of maximum metered demand (NCP).

Energy Charge: \$0.02971 per kWh per month.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's applicable line extension policy shall be in addition to charges of this rate schedule.

DETERMINATION OF DEMAND CHARGE

The demand charge shall be calculated on the maximum kW demand established by the customer for any period of fifteen (15) consecutive minutes during the period for which the bill is rendered, as indicated or recorded by a demand meter or otherwise determined and adjusted for power factor, but in no event will the demand charge be less than sixty percent (60%) of the highest metered demand established during any of the immediately preceding eleven (11) months.

POWER FACTOR ADJUSTMENT

The Customer agrees to maintain unity power factor as nearly as practicable. If at any time the measured power factor shall be less than ninety percent (90%), the Corporation may require the Customer to take such corrective measures as necessary, including the installation of shunt capacitor

---

Issued by

---

**Rate Schedule: Large Power Transmission Level – Coal Mines (LPT - CM)**

at the load, to guarantee a power factor of not less than ninety percent (90%) at the Customer metering point.

During any period that the measured power factor shall fall below ninety percent (90%), the measured demand shall be increased one percent (1%) for each one percent (1%) the measured power factor is less than ninety percent (90%), to determine the billing demand.

**MINIMUM MONTHLY CHARGE**

The minimum monthly charge will be sixty percent (60%) of the highest NCP billing demand established during any of the immediately preceding eleven (11) months plus the Basic Charge.

**BILLING ADJUSTMENT**

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

**TERMS OF PAYMENT**

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing card or the bill shall be deemed delinquent and a one and one-half percent (1 1/2%) penalty will be added to the monthly billed amount.

**CUSTOMER'S RESPONSIBILITY**

- 1) The customer shall not permit anyone who is not an approved agent of the Corporation to remove or tamper with the Corporation's property.
- 2) The customer shall provide coordinated sectionalizing equipment, acceptable to the Corporation, immediately adjacent to the point of delivery, to protect the system from the faults and over-currents in the system of the customer and to provide suitable means for the customer to disconnect from the system of the Corporation.
- 3) When disturbances in the Corporation's electrical system are observed, the Corporation will investigate and determine the cause and corrective action. If it is determined the disturbances are caused by the customer's system, the customer may be required to install proper corrective equipment or make adjustments in its operation to alleviate the disturbance.

**Rate Schedule: Large Power Transmission Level - Coal Mines (LPT - CM)**

- 4) All wiring, pole line and other electrical equipment beyond the metering point shall be furnished, installed and adequately maintained by the customer.

**CHANGES IN CUSTOMER'S ELECTRICAL EQUIPMENT**

In the event the customer shall make any substantial change in the original characteristics of its electrical service, the customer shall notify the Corporation in advance of such change. The Corporation will then evaluate any needed or necessary adjustments in its service prior to the customer making such change.

Any costs associated with needed adjustments may require a contribution on behalf of the customer.

The customer, when failing to advise the Corporation of changes in a timely manner, assumes responsibility for any subsequent damage to his or the Corporation's property.

**RULES AND REGULATIONS**

Service supplied under this schedule is subject to the terms and conditions set forth in the Corporation's Rules and Regulations on file with the Public Service Commission of Wyoming.

**Rate Schedule: Large Power Transmission Level – General (LPT-G)**

APPLICABILITY

Applicable to all customers who take delivery of electric service at the Corporation's transmission voltage and is metered at one point of delivery or as determined by the Corporation that have executed a contract for service with the Corporation. Customers eligible for service under the LPT – Coal Mine rate, LPT – CBM rate or LPC – CBM rate are not eligible for service under this rate schedule.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Alternating current, 60 cycles, three-phase.

RATE

DISTRIBUTION COMPONENT

Basic Charge: \$600.00 per month  
Demand Charge: \$0.70 per kW of NCP Billing Demand per month

POWER SUPPLY COMPONENT

Demand Charge: \$18.10 per kW of CP Billing Demand per month  
Energy Charge: \$0.029210 per kWh per month.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's applicable line extension policy or defined in the contract for service shall be in addition to charges of this rate schedule.

DETERMINATION OF NCP BILLING DEMAND

The NCP Billing Demand shall be the maximum kilowatt demand established by the Customer for any period of fifteen (15) consecutive minutes during the period for which the bill is rendered, as indicated or recorded by a demand meter or otherwise determined and adjusted for power factor, but in no event will the Billing Demand be less than sixty percent (60%) of the highest Billing Demand established during any of the immediately preceding eleven (11) months. A minimum Billing Demand will be established in the contract for service.

**Rate Schedule: General Service - Coal Bed Methane (GS-CBM)**

APPLICABILITY

Applicable to commercial, single-phase or three phase coal bed methane customers requiring less than 50 kVa of transformer capacity.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Single-phase or three-phase, 60 cycles, at Corporation's standard secondary voltage. When service is single-phase, the Corporation may limit the size of individual motors to a maximum of ten horsepower (10HP).

RATE

Basic Charge – Single-Phase: \$35.00 per month

Basic Charge – Three-Phase: \$40.00 per month

Energy Charge: All kWh per month at \$0.10280 per kWh.

MINIMUM BILLING

The minimum monthly billing under this schedule shall be the Basic Charge.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's CBM line extension policy will be in addition to charges of this rate schedule.

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½%) penalty will be added to the monthly billed amount.

power factor is less than ninety percent (90%), to determine the billing demand.

MINIMUM MONTHLY CHARGE

- 1) The minimum monthly charge for service at secondary voltages will be specified in the Master Service Agreement, Exhibit A, of the contract.
- 2) The minimum monthly charge for service at primary voltages will be specified in a Contract for Service.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's CBM line extension policy shall be in addition to charges of this rate schedule.

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½%) penalty will be added to the monthly billed amount.

CONDITIONS OF SERVICE

1. Motors having a rated capacity in excess of ten horsepower (10HP) must be three-phase.
2. All wiring, pole line and other electrical equipment beyond the metering point shall be considered the distribution system of the customer and shall be furnished and maintained by the customer.

**Rate Schedule: Large Power - Coal Bed Methane (LP-CBM)**

24.9/14.4 kV PRIMARY METERING

Subject to an engineering analysis and determination by the Corporation that capacity is available, a Customer may elect to receive service at standard primary distribution voltage.

1. To be eligible for service at standard primary distribution voltage, The Customer must sign a Special Contract for Service containing the minimum term and identifying rates and terms for conditions for service. The Special Contract for Service shall estimate the maximum load required by the Customer. Primary metered deliveries will have contracted limits as to the maximum load to be served. Additional load will require a new or revised Special Contract for Service.
2. A Load Analysis will be required prior to entering any agreements to ensure the Customer's additional loads can be served on the system, and identify any special operating conditions that may be required.
3. Customer wheeling, with or without compensation, will not be permitted.
4. At primary metered facilities that serve customer-built power line extensions subject to faults, the Corporation will install, maintain, and own the system protection at the point of connection. The customer will pay for the initial cost of this system.
5. The Corporation shall have the option of metering at the secondary voltage and adding the estimated transformer losses to the metered kilowatt-hours and kilowatt demand.
6. Where service is delivered at standard primary distribution voltage, the following discounts will apply to the customer's monthly bill:

Primary Service Discount – Demand:	
Per kW of Billing Demand per month at	\$ (0.43) per kW
Primary Service Discount – Energy:	
Per total energy billed each month	3 % discount

**Rate Schedule: Large Power Transmission - Coal Bed Methane (LPT-CBM)**

APPLICABILITY

Applicable to Coal Bed Methane customers requiring 1,000 kVa or more of capacity who take delivery of electric service at the Cooperative's transmission voltage (69 kV) metered at one point of delivery and who have entered into a Special Contract for Service. This rate is not applicable to compression loads with individual motors of 1,000 HP or greater. The Special Contract for Service is a contract that contains a minimum term and identifies rates and terms for conditions for service.

AVAILABILITY

Available upon the 69 kV transmission system within the certificated territory of Powder River Energy Corporation subject to engineering analysis and where capacity is available.

TYPE OF SERVICE

Three-phase, 60 cycles, at Corporation's standard voltage.

RATE

DISTRIBUTION COMPONENT

Basic Charge	\$1,000.00 per month
Demand Charge:	\$1.50 per kW of NCP Billing Demand per month

POWER SUPPLY COMPONENT

Demand Charge:	\$18.10 per kW of CP Billing Demand per month
Energy Charge:	\$0.029210 per kWh per month

DETERMINATION OF NCP BILLING DEMAND

The NCP Billing Demand shall be the maximum kilowatt demand established by the Customer for any period of fifteen (15) consecutive minutes during the period for which the bill is rendered, as indicated or recorded by a demand meter or otherwise determined and adjusted for power factor, but in no event will the Billing Demand be less than sixty percent (60%) of the highest Billing Demand established during any of the immediately preceding eleven (11) months. A minimum Billing Demand will be established in the Special Contract for Service.

DETERMINATION OF CP BILLING DEMAND

The CP Billing Demand shall be the maximum kilowatt demand established by the Customer coincident with the time of PRECorp's monthly system peak utilized by Basin for purposes of determining the wholesale demand billing, as indicated or recorded by a demand meter or otherwise determined and adjusted for power factor.

**Rate Schedule: Large Power Transmission - Coal Bed Methane (LPT-CBM)**

POWER FACTOR ADJUSTMENT

If at any time the measured power factor shall be less than ninety-five percent (95%), the Corporation may require the customer to take corrective measures as necessary, including the installation of shunt capacitors at the load, to guarantee a power factor of not less than ninety-five percent (95%) at the metering point. During any period that the measured power factor is less than ninety-five percent (95%), the measured demand shall be increased one percent (1%) for each one percent (1%) the measured power factor is less than ninety-five percent (95%), to determine the billing demand.

MINIMUM MONTHLY CHARGE

The minimum monthly charge will be as specified in the Special Contract for Service.

BILLING ADJUSTMENT

This rate is subject to all billing adjustment charges, and such adjustment charges shall be billed in addition to the minimum charges.

ADDITIONAL CHARGES

Any amount authorized under the Corporation's CBM line extension policy shall be in addition to charges of this rate schedule.

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½%) penalty will be added to the monthly billed amount.

CONDITIONS OF SERVICE

1. The Customer will be responsible for all 'make-ready' costs to provide a 69 kV delivery point from an existing PRECorp transmission line including, but not limited to, the following: easement, existing line modifications, load break GOAB switch, metering structure and dead-end structure plus any other necessary modifications to the existing transmission line.
2. A Load Flow Analysis will be required prior to entering into any agreements to ensure the Customer's additional loads can be served on the system and to identify any special operating conditions that may be required

**Rate Schedule: Billing Adjustments (BA)**

**I. COST OF POWER ADJUSTMENTS (COPA)**

APPLICABILITY

The Corporation shall adjust its customers' electric bills in accordance with the following Cost of Power Adjustment (COPA) factor as applicable to the rate class or group of rate classes.

CALCULATION OF COST OF POWER ADJUSTMENT (COPA) FACTOR

On an annual basis, the Corporation will file an application to establish a Cost of Power Adjustment (COPA) factor to be included in its Tariffs effective in January of each calendar year. The COPA factor for each rate class or group of rate classes will be determined by dividing the estimated over- or under- recovery of projected purchased power cost for the rate class or group by its projected annualized sales. The amount of any over- or under- recovery projected for the upcoming year will be adjusted for any over- or under- recovery from the most recent twelve month true-up period.

PURCHASED POWER COST DETERMINATION

The estimated purchased power cost for each upcoming year will be determined by projecting total system energy and demand requirements and applying the appropriate wholesale rate to the projected purchases. Fixed charges and other miscellaneous charges and credits that are part of the wholesale power bill will be included in the determination of the purchased power cost.

The purchased power cost for the LPT-CM, LPT-G and LPT-CBM rate classes will be determined based on the projected demand and energy requirements for each class. Fixed charges and other miscellaneous charges and credits will be allocated to these rate classes based on projected coincident peak demand. The LPC-CBM rate class is served under a special wholesale rate from Basin Electric and its power cost will be direct pass-on. Once the purchased power costs have been determined for the LPT-CM, LPT-G, LPT-CBM and the LPC-CBM rate classes, the remaining power cost will be assigned to all the other remaining rate classes.

DETERMINATION OF TRUE-UP PERIOD

The true-up period used to accumulate any over- or under-recovery of purchased power cost associated with the COPA shall be the previous twelve month period ending in September of each year. The balance of any over- or under- recovery in the true-up period will be amortized over the twelve month billing period starting in January of the following year.

---

Issued by  
Michael E. Easley, Chief Executive Officer

Issued: January 27, 2016

Effective: January 10, 2017

Dkt. No. 10014-168-CR-16

---

**Rate Schedule: Billing Adjustments (BA)**

CALCULATION OF OVER- OR UNDER-RECOVERY IN THE TRUE-UP PERIOD

The actual purchased power cost for the LPT-CM, LPT-G and LPT-CBM rate classes for each of the twelve months in the true-up period will be determined based on the energy sales to each rate class (adjusted for losses) and each rate class's contribution to the system's coincident peak. The appropriate wholesale rate will be applied to the purchases allocated to each of the rate classes. Fixed charges and other miscellaneous charges and credits will be allocated to the various rate classes based on its actual coincident peak demand. The LPC-CBM rate class is served under a special wholesale rate from Basin Electric and its power cost will be direct pass-on. Once the purchased power costs have been determined for the LPT-CM, LPT-G, LPT-CBM and the LPC-CBM rate classes, the remaining power cost will be assigned to all the other remaining rate classes.

The power cost recovered through the retail billing of sales in the true-up period will be determined for each rate class or group of rate classes based upon the actual kWh sold in each month multiplied by the base power cost in the rate class's retail rates. The power cost recovered in the base rates will be compared to the actual purchased power cost to determine any over- or under- recovery in each month of the true-up period. Any over- or under-recovery will be adjusted by the amount of the power cost component in the COPA revenue recovered or returned in the month.

CALCULATION OF INTEREST ON OVER-RECOVERY

Interest will be computed on any over-recovered end-of-month balances in the true-up period. The interest rate used to compute interest will be the rate specified in Section 241 of the Public Service Commission's Procedural Rules and Special Regulations. Interest will be compounded monthly in those months with an over-recovered balance.

1. COST OF POWER ADJUSTMENT FACTOR (COPA) FOR ALL RATE CLASSES EXCLUSIVE OF LPT-G, LPT-CM, LPT-CBM AND LPC-CBM

The Corporation shall adjust all electric bills in all rate classes except LPT-G, LPT-CM, LPT-CBM and LPC-CBM in accordance with the following:

$$\text{COPA} = \frac{(A - B \pm C + D)}{\text{kWh}}$$

Where:

COPA = Cost of Power Adjustment Factor (expressed in \$ per kWh) to be applied to energy sales in the twelve month billing period.

---

Issued by  
Michael E. Easley, Chief Executive Officer

Issued: January 27, 2016

Effective: January 10, 2017

Dkt. No. 10014-168-CR-16

---

**Rate Schedule: Billing Adjustments (BA)**

A	=	Total estimated purchased power cost (excluding kWh sales to the LPT-G, LPT-CM, LPT-CBM and the LPC-CBM rate classes) from all suppliers for the twelve month billing period.
B	=	Total estimated purchased power cost included in the Corporation's base retail rates (excluding kWh sales to the LPT-G, LPT-CM, LPT-CBM and LPC-CBM rate classes). The base power cost is computed as: B = (E) (kWh) E = Base power cost of \$0.058856 per kWh sold
C	=	Adjustment to be applied to the current annual COPA billing to account for differences in actual purchased power cost and the actual COPA billing in the twelve month billing period (excluding kWh sales to the LPT-G, LPT-CM, LPT-CBM and LPC-CBM rate classes).
D	=	Adjustment to be applied to the current annual COPA billing to account for accrued interest on any over-collected balance in the twelve month true-up period.
kWh	=	Total estimated energy sales (excluding kWh sales to the LPT-G, LPT-CM, LPT-CBM and LPC-CBM rate classes) in the twelve month billing period.

2. COST OF POWER ADJUSTMENT FACTOR FOR LPT-CM CLASS

The Corporation shall adjust all bills in rate class LPT-CM in accordance with the following:

$$\text{COPA} = \frac{(A - B \pm C + D)}{\text{kWh}}$$

Where:

COPA	=	Cost of Power Adjustment Factor (expressed in \$ per kWh) to be applied to LPT-CM energy sales in the twelve month billing period.
A	=	Total estimated purchased power cost from all suppliers either applied directly or directly allocated to the LPT-CM class for the twelve month billing period.

**Rate Schedule: Billing Adjustments (BA)**

- B = Total estimated purchased power cost included in the base retail rates for the LPT-CM rate class in the twelve month billing period. The base power cost is computed as the sum of the following:
- Demand Cost = \$14.97 per kW of Metered NCP kW  
Energy Cost = \$0.029710 per kWh of Metered kWh
- C = Adjustment to be applied to the current annual COPA billing to account for differences in actual purchased power cost and actual COPA billing in the twelve month true-up period.
- D = Adjustment to be applied to the current annual COPA billing to account for accrued interest on any over-collected balance in the twelve month true-up period.
- kWh = Total estimated energy sales to the LPT-CM rate class in the twelve month billing period.

3. COST OF POWER ADJUSTMENT FACTOR FOR LPT-G AND LPT-CBM CLASS

The Corporation shall adjust all bills in rate class LPT-G and LPT-CBM in accordance with the following:

$$\text{COPA} = \frac{(A - B \pm C + D)}{\text{kWh}}$$

Where:

- COPA = Cost of Power Adjustment Factor (expressed in \$ per kWh) to be applied to all LPT-G and LPT-CBM energy sales in the twelve month billing period.
- A = Total estimated purchased power cost from all suppliers either applied directly or directly allocated to the LPT-G and LPT-CBM rate class for the twelve month billing period.
- B = Total estimated purchased power cost included in the base retail rates for the LPT-G and LPT-CBM rate class in the twelve month billing period. The base power cost is computed as the sum of the following:
- Demand Cost = \$18.10 per kW of CP Billing Demand  
Energy Cost = \$0.029210 per kWh of Metered kWh

**Rate Schedule: Billing Adjustments (BA)**

C	=	Adjustment to be applied to the current annual COPA billing to account for differences in actual purchased power cost and actual COPA billing in the twelve month true-up period.
D	=	Adjustment to be applied to the current annual COPA billing to account for accrued interest on any over-collected balance in the twelve month true-up period.
kWh	=	Total estimated energy sales to the LPTG and LPT-CBM rate class in the twelve month billing period.

**II. ADDITIONAL FUEL COST SURCHARGE FOR GENERAL SERVICE – COAL BED METHANE, LARGE POWER – COAL BED METHANE, AND LARGE POWER TRANSMISSION – COAL BED METHANE**

In the event the wholesale supplier includes additional fuel charges directly related and assignable to service provided to the coal bed methane customer classes, the Corporation will directly recover these fuel costs from these classes on a per-kWh-sold basis. Only the additional fuel related charges specifically identifiable on the wholesale power bill for service provided to the coal bed methane classes of customers will be recoverable. The surcharge amount will be determined on a monthly basis.

**III. CERTIFICATE FEE FOR CUSTOMERS WITHIN THE TERRITORY OF THE UPTON REGIONAL INDUSTRIAL SITE (Docket No. 10014-86-CA-06 effective February 1, 2006)**

The Corporation shall charge a Certificate Fee of \$ 0.005 per kWh on all energy delivered to loads over 45 kW and located within the Upton Regional Industrial Site. For purposes of this Certificate Fee, load shall be calculated on a per customer basis, regardless of the number of meters registered to the customer.

Loads over 45 kW are defined as (1) loads which have registered a 45 kW or greater peak demand in the month of service or (2) loads which have registered a 45 kW or greater peak demand during the previous six months.

This Certificate Fee will be effective for a ten (10) year period commencing on February 1, 2006.

**Rate Schedule: Idle Line Retention (IS)**

APPLICABILITY

To customers who have fulfilled the terms of the contract for service and who have no immediate need for electrical service but desire to have the electric line left in place for future use. The meter, meter loop, security light and transformer may be removed at the option of the Corporation. Poles and line will be left intact.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

MONTHLY RATE

Residential/Seasonal	\$15.00
Irrigation	\$15.00
General Service	\$18.00
General Service CBM	\$35.00
Large Power	\$79.00
Large Power CBM	\$100.00

TERMS OF PAYMENT

Payment for electric service must be received in one of the Corporation's offices or one of the banking institutions that offer the Corporation's bill paying service within twenty (20) days of the billing date shown on the billing statement or the bill shall be deemed delinquent and a one and one-half percent (1½ %) per month penalty will be added to the unpaid balance.

RECONNECTION OF SERVICE

The customer may request to have an idle service restored by notifying the Corporation and paying the Corporation's Connect Fee, plus any applicable deposits. With the exception of the Residential/Seasonal rate class, a load evaluation will be required prior to restoration and additional charges may apply if system improvements are necessary. The Idle Line Retention charge does not ensure that system capacity will be available at the time the customer desires to restore an idle service.

RETIREMENT OF SERVICE FOR NON-PAYMENT

If payment is not received by the Corporation within thirty (30) days, a certified letter requesting payment will be sent. If the customer has not responded within sixty (60) days, the Corporation will have the option to remove any and all facilities. If all facilities have been removed and the customer desires restoration of service at a later date, the request will be treated as a request for new service and the appropriate line extension policy will apply. The customer will be required to pay any amount authorized under the Corporation's line extension policy.

**Rate Schedule: Green Tag (GT)**

APPLICABILITY

Applicable to customers receiving electric service under any of the Corporation's rate schedules who elect to purchase Green Tags in support of the production of renewable energy.

A Green Tag represents the intangible environmental attributes associated with producing one (1) MWh of electricity from a renewable resource, such as wind, solar or biomass. The Corporation will purchase Green Tags from Basin Electric Power Cooperative under its Prairie Winds® - Energy in Motion program at the rate published in Basin Electric's rate schedule Green Tag & Green Energy Rate. These Green Tags will be sold to the Corporation's customers in blocks equivalent to one-tenth (0.10) of a Green Tag.

AVAILABILITY

Available within the certificated territory of Power River Energy Corporation.

MONTHLY RATE

\$0.20 premium per month for one (1) block which is equivalent to one-tenth (0.10) of a Green Tag and represents the environmental attributes of 100 kWh of renewable energy. Customers may elect to purchase as many blocks as they want from the Corporation.

MONTHLY BILLING

The monthly premium to be added to the customer's bill shall be the number of blocks the customer has agreed to purchase multiplied by the monthly rate per block. The monthly premium is in addition to all other charges contained in the customer's applicable rate schedule and will be added to the customer's bill regardless of actual energy consumption during the billing cycle.

SPECIAL CONDITIONS

Customers who elect to purchase blocks of Green Tags under this rate schedule will indicate the quantity they intend to purchase monthly. The commitment to purchase Green Tags will be for a minimum of a one (1) year period and will continue on a monthly basis thereafter until the Corporation is notified in writing to either change or end the customer's participation.

RULES AND REGULATIONS

Service supplied under this rate schedule is subject to the terms and conditions set forth in the Corporation's Rules and Regulations on file with the Public Service Commission of Wyoming.

**Rate Schedule: Small Power Production (SPP)**

APPLICABILITY

Applicable to residential customers of the Corporation who install facilities on their property for the purpose of generating electric power. Includes wind generation, solar electrical generation and other generation from renewable resources.

AVAILABILITY

Available within the certificated territory of Powder River Energy Corporation.

TYPE OF SERVICE

Single-phase, 60 cycles, at Seller's standard secondary voltage, which is being supplied at the existing service entrance.

RATE

The Corporation shall pay the customer for all kWh generated per month at the Corporation's avoided cost. This rate is available on the Corporation's Tariff Rate Rider, sheet number 1C.

The Corporation's avoided cost shall be the avoided cost of Basin Electric Power Corporation, as published in Basin's Electric Policy for Administering the Public Utility Regulatory Policies Act of 1978 (PURPA) .

MINIMUM BILLING

Not applicable except where the minimum is subject to the line extension policy.

TRANSFORMATION CHARGE

When more than 15 kVa of transformer capacity is required, a monthly charge of \$1.00 per kVa for each kVa greater than 15 kVa shall be required.

PARALLEL OPERATION

Interconnection of the customer's generation with Corporation's system will be permitted only under the terms of a contract between customer and the Corporation. Such contract will include but not be limited to the following:

1. The customer shall indemnify and hold harmless the Corporation from any and all liability arising from the operation and interconnection of the customer's facilities.

---

**Rate Schedule: Small Power Production (SPP)**

2. The customer shall provide a lockable disconnect switch to isolate the customer's generation from Corporation's system. Such switch shall be accessible to Corporation personnel and the Corporation shall have the right to lock such disconnect switch open whenever necessary to maintain safe electrical operating conditions, or whenever the customer's facilities adversely affect the Corporation's system.

The lockable disconnect switch, special metering, required protection; such as voltage relays, frequency relays, directional relays, fuses, breakers, maintenance, etc., as may be required, shall be the responsibility of the customer and subject to the approval of the Corporation.

3. The Corporation shall provide an additional meter base to measure the customer's total generation independently from the customer's load.
4. The customer shall be allowed to serve his own load where practical.
5. Except for the metering, the customer shall own and maintain all facilities on the customer's side of a single point of delivery as specified by the Corporation. The customer's system, including interconnection equipment, shall meet the requirements of and be inspected and approved by the State Electrical Inspector and any other public authority having jurisdiction before any connection is made by the Corporation.
